## Science

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Make Observations						
<b>ELG Understanding The World: The World</b>  Make observations of animals and plants and explain why some things occur Talk about changes	Start to observe closely	Observe closely	Develop skills of systematic observation	Make systematic observations	Independently decide which observations to make	Independently decide which observations to make
Perform Tests						
	Perform simple tests with support	Perform simple tests	Set up simple practical enquiries Understand comparative and fair tests	Suggest, set up and carry out simple practical enquires Understand comparative and fair tests	Recognise and control variables where necessary	Recognise and control variables where necessary  Explain which variables need to be controlled and why
Ask Questions						
	Start to ask and suggest answers to simple scientific questions  Use first-hand practical experiences to find answers	Ask and raise their own scientific questions  Use first-hand practical experiences to find answers	Ask relevant scientific questions and suggest how to answer eg <i>practical test vs secondary sources</i>  Develop different types of scientific enquiry	Generate and answer scientific questions using evidence  Select most appropriate type of scientific enquiry	Use science experiences to plan different types of enquiry	Plan different types of scientific enquiry in order to answer questions  Use science experiences to explore ideas and raise different types of question
Gather Data						
	Begin to gather and record data simply using pictures and words	Gather and record data using diagrams, words and charts	Gather, record and present data in variety of ways eg drawings, labelled diagrams, charts  Report on findings orally and in writing using scientific language	Gather, record, classify and present data in a wide variety of ways eg <i>drawings, labelled diagrams, charts</i>  Report on findings orally and in writing using scientific language to answer questions	Record data/results of increasing complexity using diagrams, classification keys, tables, bar and line graphs  Report and present findings from enquiries, examining causal relationships and reliability of results	Decide how to record data/results of increasing complexity using diagrams, classification keys, tables, scatter graphs, bar and line graphs  Report and present findings from enquiries, examining causal relationships and reliability of results

## Science

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Analyse Data						
<p><b>ELG Understanding The World: The World</b></p> <p>Make observations of animals and plants and explain why some things occur Talk about changes</p>	Start to discuss what they have found out	Discuss what they have found out	<p>Use results to draw simple conclusions and make predictions</p> <p>Identify similarities, differences, changes related to scientific processes and ideas</p>	<p>Use results to draw simple conclusions, make predictions, suggest improvements and raise further questions</p> <p>Explain similarities, differences, changes related to scientific processes and ideas</p>	<p>Use test results to make predictions to set up further tests (comparative/fair)</p> <p>Identify scientific evidence that has been used to support/refute arguments</p>	<p>Use test results to make predictions to set up further tests (comparative/fair) and explain reasoning</p> <p>Interpret scientific evidence that has been used to support/refute arguments</p>
Use Equipment						
	Begin to use simple equipment eg <i>egg timers, hand lenses</i>	Use simple equipment eg <i>hand lenses, egg timers</i>	Use range of equipment to measure accurately eg <i>dataloggers, thermometers</i>	Confidently use range of equipment to measure accurately eg <i>dataloggers, thermometers</i>	Take measurements using a range of scientific equipment with accuracy and precision	Take measurements using a range of scientific equipment with accuracy and precision, taking repeat readings where appropriate
